

OlympusRecorders

To use:

1. Hold down the power button until it turns on
2. Push the folder button until the screen says "talk" to record.
3. Push the record toggle switch (under the power button) up to start recording
4. Push the record toggle switch down to stop recording
5. Use the fast forward button to scroll through the recordings to choose what to listen to
6. Press play when you find the recording
